

A highly controversial documentary "Stolen Honor" is going to be shown on 62 stations owned by Sinclair Broadcasting 2 weeks before the presidential election. This documentary is highly partisan . It is not fair for these 62 stations to be forced to show this movie. Especially without commercial interruption like Sinclair plans on doing. Sinclair is supposed to serve the public interest and their are rules for fairness in elections that will be violated in they show this movie. This is one of the problems that result when one company can control 25% of television shown in US households. The FCC was setup to insure that the public interest is served by companies using our public airways. You must disallow Sinclair from showing this smear documentary unless it also shows the documentary "Going Upriver" after "Stolen Honor". It is illegal for a television station to show one side unless it also shows the other. Showing "Stolen Honor" alone does not serve our communities and harms our democracy.
